New York, November 16.—Five thousand persons visited the Navy Yard yesterday. No secret is made of the fact that orders have been received from Washington to prepare all available vessels in the yard for active service as soon as possible, and well informed parties say orders have been issued to prepare for sea at once every vessel in the Navy. Frigates Minnesota and Colorado, with fifty guns each, will be ready for sea within twenty-five days. At the hotels and clubs the Cuban difficulty and complications almost certain to arise from it, n twenty-five days. HAVANA, November 16.—The Vose de Cuba says a conspiracy has been discovered in Holquin and surrounding jurisdiction for rising simultaneously with the landing of the Vignius expedition. The plot had extended the response of the Chamberra of leations throughout the island, and was to have been carried into execution on the 1st of November. Many persons have already been arrested, and arrests are daily increasing. The Vose hopes that the parties

There is a world of truth and wisdom in the following paragraphs from the New York

The Milwabkee Wisconsin relates the following:

"After the crash of '57, when everybody was almost ic used to death, and the croakers predicted that the country had gone to smash, a dry goods house was opened in this city, which proceeded on the principle that in order to reach the horded money in the pockets of the people, the propietors must sell at very reasonable prices and advertise very largely. They worked vigorously upon this principle. Their brother merchants who did not advertise predicted that the new comers would be roised, as they paid too much for advertising. Captain Jos. Fry.

Captain Joseph Fry, the ill-fated comnander of the Virginius, who has been so parbarously murdered by the Spaniards, was a citizen of New Orleans, and leaves a wife and seven children in poverty. He was unable to make a living for his family in New Orleans in commercial pursuits, and went North to hunt employment. He was a sea-man by profession, and finally obtained the command of the Virginius at a small salary. He thus accepted the fatal position, from no Quixotic love of adventure, but under stern necessity, to get meat and bread for his large

suggestion. The papers are calling for aid for the afflicted and needy family of the gal lant and unfortunate Southern gentleman.

The must sensible thing we have yet read f is the bold action of the large house of H. B. Claffin & Co., of New York. This firm has been embarrassed by the panic. Bishop Cummins of Kentucky.

The withdrawal of the Right Rev. George David Cummins, Assistant Bishop, from the liocese of Kentucky, will be apt to attract the attention of the country. The Episco palians of that State seem to be divided or the subject of his official action; some cen sure and some approve the step he has taken but all agree that he is a brilliant, vigorous and influential preacher. He is a man of

arduous intellectual labors. And he has such before him if the reports Kentucky, Dr. Cummins by no means lays the jury to be intelligent, which excluded hi down his episcopal duties. He is still a Bishop, and can only be deposed by a majority of the House of Bishops. It is beieved in Louisville that he intends to place himself at the head of a new church organization, with his headquarters at New York, and his jurisdiction extending over the whole

His action in the joint communion service

held in Dr. Hall's (Presbyterian) Church during the meeting of the Evangelical Alliance at New York was only a culmination of his course for several years past. It is not a rare ecurrence for Episcopalians and members of other denominations to commune together. But the Bishop had strongly set his face against all phases of what is generally called ritualism. His strictures upon boy-choirs choral services, genuflections and other like innovations have been so severe that some of his churches have declined to avail themselves of his episcopal visitations, and have sent for bishops of neighboring States to officiate in the services of the ritualistic churches are conducted so as to symbolize and to teach the people doctrines subversive of the "truth as it is in Jesus," and as it was maintained and defended by the reformers of the sixteenth century. He has "lost all hope" that such things will be eradicated by the authorities of the Church. He believes that the true remedy

is a thorough revision of the prayer-book; and he proposes to use hereafter the prayerbook sanctioned by Bishop White in the lat-The whole truth probably is, that Bishop Cummins has decided to found a new phase of Episcopacy, based upon the ideas prevailing in the Low Church or evangelical section of the main body. It is a division that has been brewing for several years. The Bishop defends in his letter his action in Dr. Hall's Church, and expresses the earnest ion of all evangelical Christendom will be found-a position, says the Bishop, toward

THAT HORROR.

THE UNITED STATES GOVERNMENT MAKING CLOSE ENQUIRY. WASHINGTON, November 17 -There wer

but few visitors at the Executive Mansion to day. Nearly all of whom were admitted to audience with the President.
Secretary Fish, who brought his portfolio of documents on the Cuban question, was closeted with him for an hour, and explained elested with him for an hour, and explained the present state of the correspondence with the Spanish government, which the President subsequently said to the writer of this article that it would now be improper to make public, because only these were diplomatic usages and courtesies, which it was necessary to observe pending the controversy; but in due time the result would be announced. This government had thus far acted on such facts as had reached it and was engaged in the collection from all it, and was engaged in the collection from al available sources of further information concerning the capture of the Virginius and the particulars attending the revolting execu-tions which followed the event. It was de-sirable that all information should be of such a character as would leave no doubt whatever as to its reliability. The propriety of this course was too evident to require ex-

illy tending, and which has already taken a definite form in the "Church of Jesus" in Mexico.

We have thus endeavored to state the situence of the state of the essential that we should be prepared to maintain our position.

The President said he had changed none of the views heretofore expressed by him concerning events in Cuba, but had more than ever been confirmed in them by recent occurrences. He shared with the public their denunciation of the capture on the high seas of a vessel sailing with regular clearance under the U. S. flag, and the startling events which so quickly followed. Spain never having considered the island of Cuba in a which so quickly followed. Proposed Improvements in His Weather Reports.

From the Detroit Free Press.]

There is a certain stiffness and formality about Old Probabilities' reports which common people would like to see changed for something more frank and open-hearted.

The whole thing could be made more chesrful reading and more interesting to the young if some newspaper man had the weather to a take care of. For instance, where the report now reads, "for the northwest, rising barometer, with cold northerly winds," a right minded journalist would say: "Folks in Wisconsin and Minneaota will get up and git to morrow; it will be cold enough to freeze the hair on a hitching post. Just a year ago to morrow the 'Dublin Boy' and the 'San Francisco Babe' had a set-to near New Orleans, and Dublin wen; it is also the second anniversary of the Watertown Bank robbery, where the nice thieves carried off \$200,000, and were allowed to keep \$50,000 for their honesty in restoring the balance. Honesty is the best policy; look out for cold winds, and a snow storm is probable."

The present weather man says: "For Saturday, in the Gulf States, south and east winds, rising temperature, threatening weather and occasional rains." Now, that

Then where Probabilities says, "For the Middle and Eastern States, southwest winds, with partly cloudy weather," it ought to read: "Not a good day for taking photographs east of Michigan. Some Soap

From the Danbury News 1 We see by the Troy Whig that Frank D. Hatfield, the agent for the soap house of McKeon, Van Hagan & Co., has received a vote of thanks from the Board of Albermen of that city, for a gift of soap. Mr. Hatfield is appreciated in Troy, and had better stay there. At least, he should keep away from Danbury. Several weeks ago some of his soap was left at a house, on Liberty street, where it gave satisfaction, we learn. Two weeks later, the lady of the horse-bush to box of fancy soaps of the same manufacture. The cakes were of three colors, yellow, white

She took the box home, and meant to have laid it away, but it caught the eye of her child, some three years old, and so exercised child, some three years old, and so exercised the throat of the youngster that she was obliged to give up the box and the contents. Subsequently, being engaged in baking, she lost sight of the affair. In the meantime, the child looked over the box, and finding the contents to be unusually attractive, undertook to eat them, but failing in this, used them as blocks for laying out townships, erecting towers, and performing a variety of other engineering feats.

engineering feats.

Pretty soon it fell to knocking them down, with its hand, and then to kicking them around the room with its foot, and when this amusement lost its attraction, it suddenly set up a dreadful howl of agony, and started for the kitchin. It was about this time that the man of the house, who had been abed up stairs, came down stairs in pants and shirt, to get some shaving water. When within four steps of the bottom, he stepped on something which immediately disappeared with astonishing celerity and deposited him on the floor below without the aid of the other steps. He got up on his feet at once, and looked about for the cause of the accident. It was a cake for the cause of the accident. It was a cake of that soap. He picked it up, and with wonderful presence of mind hurled it through the glass of the first window. Then he gathered up the shaving cup and brush, and went into the room. He went into it just as

any man would who had missed four steps in coming down stairs; and lighted on another cake just as he was about to kick the door shut. What became of her or the centretable in the crash that followed he can-not tell. He remembers when striking the table of seeing some twenty-five new planets, with a pyrotechnic display in the background, and thinks he must have neard a million fire-crackers go off under harrel. from the Alexandria Fentinel.] General Dabney H. Maury, now sojourn-ing in our city, himself a distinguished offi-cer in the Confederate service, and intimately acquainted with the man, who several time during the late war served under his orders gives us the following memorial notice of the callant officer, whose name heads this article "Captain Joe Fry, whose execution by the Spaniards in Cuba has been announced, was a well-known lieutenant of the United States navy, who resigned his commission in that service on the secession of Florida from the Federal Union and served throughout the war in the navy of the Confederate States. He was a faithful and daring officer, and an upright gentleman, who was held in hig esteem by all who knew him. In the time of our war his name was always thought o when an enterprise of peculiar danger was or foot; and he was ever ready to espouse the cause of liberty and to uphold and defend the oppressed. house as she would design. Being one of those fascinating women, whose poculiar province it seems to be to make old bachelors do foolish things, she had such influence over Mr. Gillespie that he bought the lot and built the house according to her suggestion. After the had finished it off in elegant style, she married another man, and is now living in or near Lafayette, Alabama, we believe. Gillespie became a morose old bachelor, and died of a broken heart. The house was put in a lottery of \$10 000, and Dr. McJimpsey draw it with a \$2 50 ticket, which ticket is now in possession of Dr. W. H. Brown, who now owns the house. That house and lot has recently been improved, and is now one of the handsomest residences in Columbia.

The atrocious barbarism of the Republic executions, will prove the death-knell of the Spanish sway in Cuba. During the four years of the struggle of the Cubans for emancipation from the bloody despotism of Spain our government has looked on with a forbearance that has long ceased to be a virtue. Time and again have the authorities of Spain violated our rights and oppressed or murdered our citizens, while they have shown themselves utterly unable to maintain their supremacy in the island or to repress the revolution their own cruelty has caused. The government of the United States can no longer find in the more void of offense to his fellow man than did this gallant man.

"The atrocious barbarism of the Republic in the island or to repress the revolution their own cruelty has caused. The government of the United States can no longer find in the laws of nations such prohibition of active and vigorous measures now as will satisfy the American people. If brutal murders like this be the fruit of Spanish republicanism,

all Christendom will cry out for a monarch Spain.
"The blood of Captain Fry and his con rades has not been shed in vain, from all over this country will go up a cry for vengeance upon their murderers, and Cuba soon be free Cuba."

The California Wine Trade.

The vintage of the present year is drawing to a close, but the season, as we gather from the statements of those engaged in the wine making business, has been a gloom wine making business, has been a gloomy one for the vintnera. The yield this year is below that of 1872, when it was about 4,000,000 gallons. For the current season the yield has been calculated at between 2,500,000 and 3,000,000, which is considerably below half the estimate made at the commencement of 1873. This small production is owing to the unseasonable frosts when the vines were abooting for blossoms. This frost affected alike the principal grape growing districts of

How to Live Economically.—The problem of how to economize in living is one that engages the serious attention of a great many people. "Many a little makes a mickle," was one of Benjamin Franklin's "Poor Richard," truism that summarizes the whole system of popular extravagance. If you wish to save money, economise in little as well as in large items of expenditure. For all the household purposes for which polishing powders, Bath brick and soap are usually used, excepting the one thing of washing clothes, Sapolio is by many times the cheapest article that can be employed. To say nothing about its great superiority to all other substances, it is, on the score of money alone, by far the cheapest. Remember this fact and save many dollars every year.

VEG.ETABLE LIVER PILLS THE ONLY KNOWN MEDICINE

THAT AT THE SAME TIME PURGES, PURIFIES AND STRENGTH ENS THE SYSTEM.

Br. The SYSTEM.

Dr. Tutt's Pllis are composed of many ingredients. Prominent smong them are Sarsaparilla and Wild Cherry, so united as to act together; the one, through its admixture with other substances, purifying and purging; while the other is strengthening the system. Thus these Pills are at the same time a tonic and a cathartic, a desideratum long sought for by medical men, but never before discovered. In other words, they do the work of two medicines and do it much better than any two we know of, for they remove nothing from the system but impurities, so that while they purge they also strengthen and hence they cause no debility and are followed by no reaction. strengthen and hence they cause no debility and are followed by no reaction.

Br. Thit's Pills have a wonderful influence on the blood. They not only purify without weakening it, but they remove all noxious particles from the chyle before it is converted into fluid, and thus makes impure blood an uter impossibility. As there is no debilitation, so there is no nasuses or sickness attending the operation of this most excellent medicine, which never strains or tortures the digestive organs, but causes them to work in a perfectly natural manner; hence persons taking them do not become pale and emaciated, but on the contrary, while all impurities are loing removed, the combined action of the Sarasparilia and Wild Cherry purifies and invigorates the body, and a robust state of health is the result of their united action. Price 25 cents a box. Sold by all dreggists. Depot 43 Courtland street, New York.
